Docket No. 98N-1265 1081 '99 MAR 23 10:04

Food and Drug Administration

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS:

For years my doctor prescribed Progesterone for me which alleviated my symptoms but caused me uncomfortable side effects. It was my doctor who suggested I take the Progesterone-like substance (made from yams?). For 3 years I have ~~been~~^{taken} this medication with none of the side effects of traditional progesterone. The pharmacy with the best reputation is in Madison, WI — I live in Missouri — Please do not take this resource from me —

Sincerely, Eris Cumbe
